COMPANY PROFILE

MTK Armaturen GmbH is a leading German manufacturer of sanitary ware faucets and fittings established in Goch, Germany. With an expertise of more than 30 years, the company has been built on core values of precision in quality, innovation of design, and excellence of service. All of our products are of high quality German material with superb technical innovation. This has allowed MTK to gain the appreciation and trust of architects, builders, plumbers, and dealers.

MTK has accomplished to serve many customers in the EU and MENA countries. Our diversity of brands has empowered MTK to cater to the various segments of clients.

MTK products are synonymous with superb finishing quality and durability. MTK guarantees its product for prolonged periods of time due to the use of high-grade European raw materials, highly skilled workforce, and dedicated technical engineers.

Quality

Quality, comfort and aesthetics are tremendously important within MTK.

Our mixers keep their promise. The company's skilled team and the use of state of the art machines, has ensured each item is rigorously tested and approved. Whether be it bathroom mixers and faucets, taps, angle valves, or fittings all products must pass our stringent quality tests. That is why we are confident to provide 10 years of warranty on our mixers.

All our mixers are fitted with Neoperl aerators. This ensures our commitment to water and energy saving.

FEATURES

EASY FIX

Easy process of installation and fixing the tap can be fitted quickly and easily with no risk of leakage or limescale deposits.

The fittings come pre-assembled and use a single stainless-steel set to secure center. This also means the fittings are exceptionally easy to maintain.

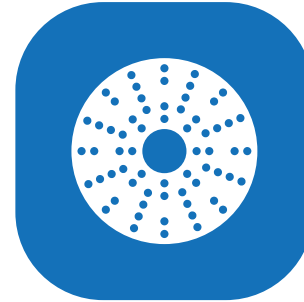

COIN SLOT AERATOR

The PERLATOR Coin Slot Aerator can be used with cast faucets and needs no brass and no tools. This threaded aerator has an integrated coin slot for easy assembly or disassembly and can be removed with a coin.

NO KEY - all you need is a coin to assemble or disassemble the aerator
100% COMPATIBLE with existing M24x1 aerators and fully compliant with EN246 bore specifications.

FLATNESS is achieved by a revolutionary small aerator mixing chamber - NEOPERL technology compresses into very little space.

DRIP RAIL functionality is fully integrated and prevents drops from running down the faucet.
PERFECT STREAM QUALITY - the HONEYCOMB structure provides perfect stream quality.

EASY CLEAN

Nozzles are easy to clean with a quick rinsing and rubbing.

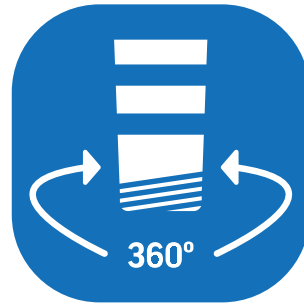

WATER SAVINGS

Water saving by limiting water consumption and not sacrificing comfort. Save precious water while adding a touch of streaming elegance to your bathroom.

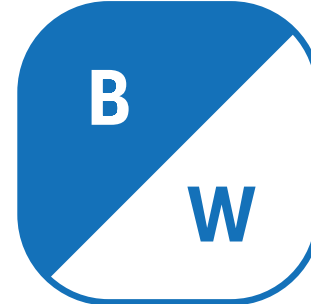

AIR POWER

Mixing water with air for a smoother jet and a joyful experience in use. The feeling of the stream lets you enjoy the water with a sensational use.

SWIVELING FLEXIBLE HOSE

Makes use of the hand shower for optimum convenience and flexibility.

DISTINGUISHED FINISHES*

Mixers available in the following finishes

B - BLACK / **W** - WHITE /

G - GOLD / **Br** - BRONZE / **C** - COPPER

PRODUCT CONSTRUCTION

Conceptual Design:

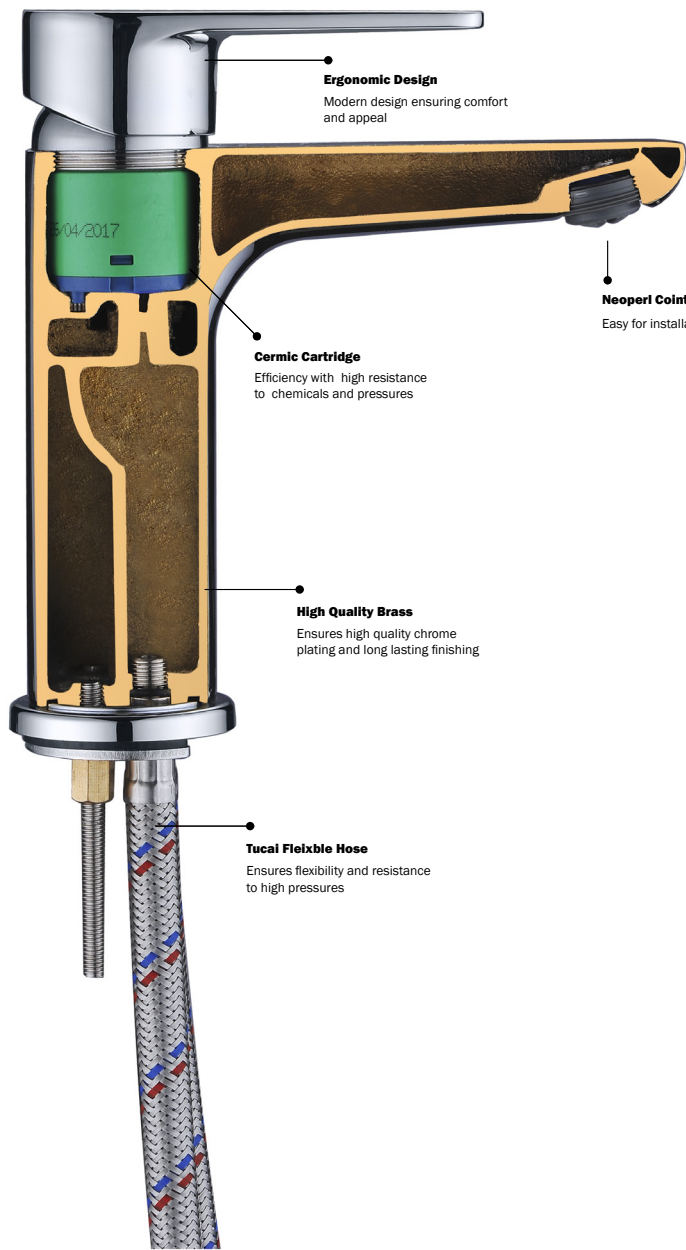

The product designs follow sequential phases starting from the conceptual ideas to reach the ergonomic designs. The production team understands the customers' needs and designs in the most efficient, comfortable and modern approach.

Production:

The use of high-grade brass material together with precision in plating provides us with a durable shiny surface that is resistant to corrosions. We also define the ease of operations via the simplicity and reliability of the technical functions. MTK products incorporate innovative technology down to the last detail. From the jet controllers which form the jet of water into perfect shape, through the economic water-saving technology as well as the quick-installation technology.

Accessories:

Our products are equipped with the best accessories to reflect its quality and maintain its outstanding characteristics.

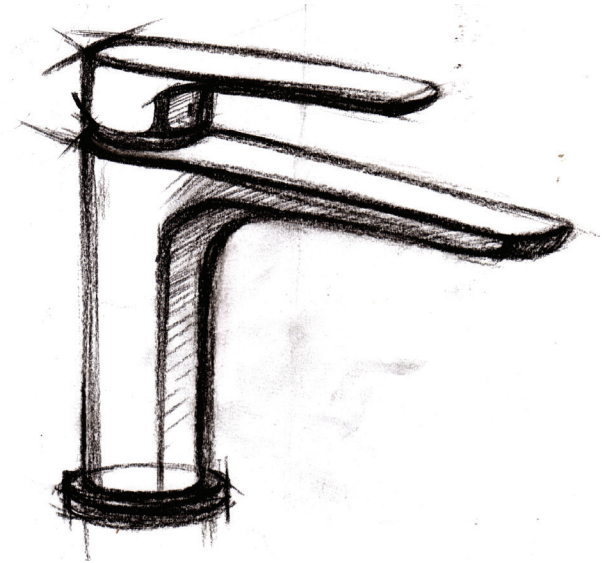

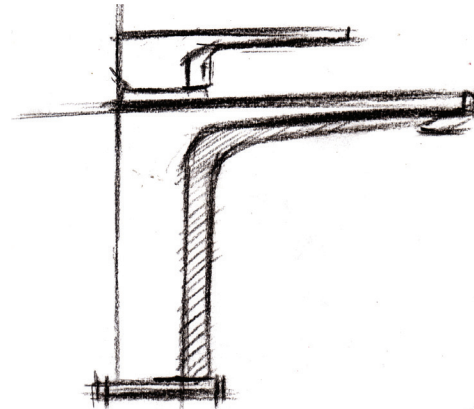

Ergonomic Design
Modern design ensuring comfort and appeal

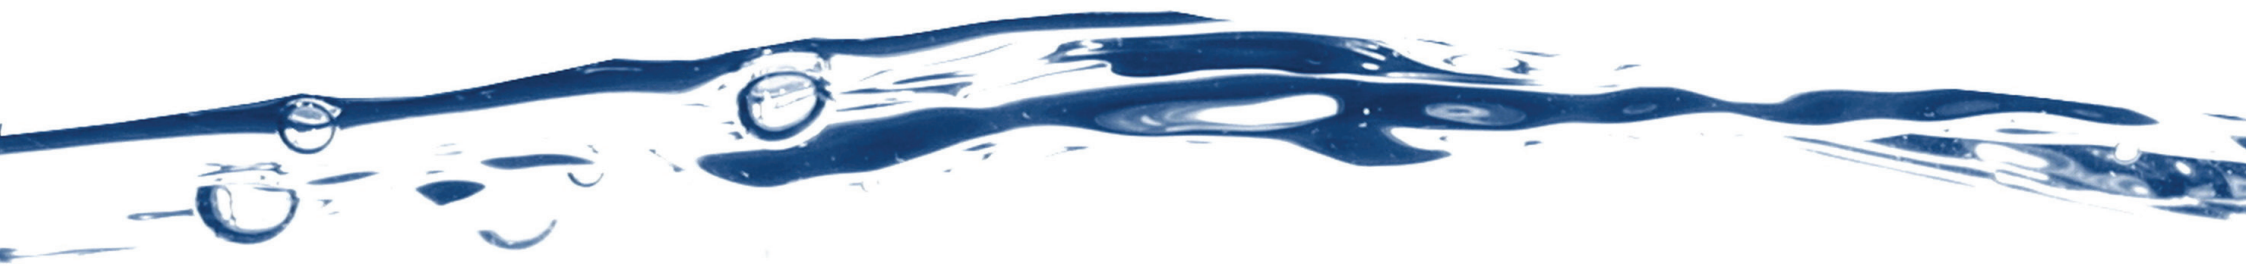

Ceramic Cartridge
Efficiency with high resistance to chemicals and pressures

High Quality Brass
Ensures high quality chrome plating and long lasting finishing

Tucal Flexible Hose
Ensures flexibility and resistance to high pressures

Neoperl Coirt Slot Aerator
Easy for installation and cleaning
